

Mini Carbon Monoxide Meter CO-910

FEATURES

- ▶ Sensor: Stabilized electrochemical Gas-specific
- ▶ Measurement range: 0 ~ 1000 PPM
- ▶ High accuracy
- ▶ Large LCD display
- ▶ Accuracy is not affected by humidity
- ▶ Small sensor drift
- ▶ Stable readings
- ▶ MAX reading and Data Hold
- ▶ Low battery consumption, long battery life.

Specifications

Model	CO-910
Sensor	Stabilized electrochemical Gas-specific
Measurement Range	0~1000 PPM
Accuracy	5%±10PPM
Measurement Resolution	1PPM
Response Time	<30S
Zero Drift	<5PPM
Repeatability	±2%
Fast Sampling Time	2 times/second
Long-time Stability	<5%/year
Operating Conditions	-20~60°C-4~140°F;<90%RH(Non-condensation)
Storage Conditions	-30~70°C-22~158°F;<75%RH
Audible Alarm	can set upper limit
Typical Sensor Life	about 5 years
Dimension(L*W*H)	171*55*38mm
Weight	152g
Accessories: User's manual,9V battery, Blister card with clamshell.
